

SOUTH WEST SWIM

Session Name: A Tale Of FOUR Blocks

Session Introduction

Hi Swimmers, welcome to another FREE session plan from South West Swim.

This week we have a session where you get to choose your story. Once again it is an adapted version of this week's Tuesday session. Our swimmers loved the choice that they got to choose which distance to swim and where within the outline of the session plan.

We have listed four main swim blocks of 50m, 100m, 200m and 400m and you can swim any of these blocks anywhere in the main set. For example, get the biggest out of the way first and do the 400's, or play safe and do the 100's first. There are also three recovery blocks, which are to be swum (again you can choose the order) between the hard work in the swim blocks.

Because of the structure of this session you can swim it multiple times and get a different feel each time by moving the order of swim around.

You will see we are using tempo trainers for CSS pacings and RM pace set ups, but there is also direction in the session plan based on effort levels. All effort levels should be based on your perception of your 1500m threshold time (which is how CSS is calculated). If you want to get the full benefit of our sessions that use CSS pacing then you can download our CSS Test session [HERE](#).

As with all our released session plans, feel free to adjust distances and number of blocks performed to suit your training schedule, fitness and available pool time.

See The Video Introduction For This Session

See Head Coach Jason's Introduction to this session plan including a guide to a couple of the drills used today at

<https://youtu.be/kknPgtexA8w>

Want to know more about your individual stroke and the drills & visualisations you should be focusing on? And why! Book into a Video analysis, Mini analysis or 1-to-1 session with us for a comprehensive stroke MOT.
