

Session Name: Feel Your Pacing

Session Introduction

Hi Swimmers, welcome to another FREE session plan from South West Swim.

This week we have a nice simple session designed to get you feeling your threshold pace and holding the pace through the session (if completed with CSS times and Finis Tempo Trainers). If you don't use CSS based times you are looking at holding a consistent swim pace that you could manage to swim 1500m at, evenly, in one go. The linked video below holds more information about the session for you, including videos of the drill sections.

If you want to do a CSS test then you can download our session [HERE](#).

As with all our released session plans, feel free to adjust distances and number of blocks performed to suit your training schedule, fitness and available pool time.
